

Science Award

On April 6, 2017, the DuPont Excellence in Teaching Award was awarded to Saint Andrew Catholic School teacher Emily DeLaurentis. This award was in appreciation for her many years of dedication and service to the Delaware Valley Science Fairs and support of science education in the community. Emily DeLaurentis is a Science and Math teacher with 26 years experience and 13 of those years having been spent teaching at Saint Andrew Catholic School. Emily coordinates the science fair at Saint Andrew Catholic School with 6th – 8th grade students. She works very hard to make sure the students achieve the highest awards that are possible to receive for their science fair projects.

Emily received a Plaque, a Monetary Award, and an all-expenses paid trip to Los Angeles for the International Science and Engineering Fair in May.
